--	--	--

- ★ ***Mommy Dole Whip Category: things I have found I cannot live without on any of my visits.***
- ★ ***Spring and Summer months are super hot. I find that the littlest Dole Whips do well without shoes or at least with sandals. If they are cranky and hot, they won't always be able to tell you that socks and sneakers are turning their feet into swamp buckets!***
- ★ ***Hotel Shampoo and Conditioner won't cut it for my hair. I always have to bring (a lot) of my own.***
- ★ ***There are life vests available for the bigger Dole Whips at the resort pools but those littlest ones won't fit in even the smallest size. I usually bring a collapsible/foldable baby one with me so the baby and I can enjoy a nice dip in the pool.***

This is our list of suggestions , work within the categories and take what works for your family!
